

# Modeling of Production and Logistics Systems

## Instructions for seminar work

### Contents of seminar work

Seminar work is based on the file with examples <https://janfabry.cz/en/MPLS-exercises.pdf> available on web site <https://janfabry.cz>.

Examples are only the sample. In all examples, prepare your own instances.

- Example 7.
- Examples 8 – 12. Select 2 from all examples.
- Examples 13 – 17.
- Examples 18 and 19.
- Examples 20 – 28 (in example 25 apply only the nearest neighbor method, i.e. elaborate only point 1).

### Elaboration

It is necessary to use the **template of seminar work**, available at the document server of AIS. Maximally two-member teams can elaborate the seminar work.

### Submission

It is necessary to submit the seminar work latest in the last week of semester (if you work in a team, the file with the seminar work must be submitted in the coursework submissions area in AIS).

### Evaluation

Seminar work is evaluated with the maximum of 30 points.
